

ZATCA PHASE 2 e-Invoicing Compliance

Connect your ERP to the Fatoora portal in days, not months, with our automated e-invoicing integration. Our cutting edge integration solution acts as a direct bridge between your existing ERP system and the Fatoora portal.

KEY FEATURES

End-to-End Automation

Automated XML generation, cryptographic stamping, and QR code embedding.

Smart Hashing & Security

Automatic handling of UUIDs, digital signatures, and secure API handshakes.

Volume Ready

Proven architecture supporting multi-store retailers and high-volume transaction environments.

Invoice Versatility

Full support for both B2B tax invoices and simplified invoices.

Full Regulatory Compliance

Meets 100% of Integration Phase mandates.

Rapid Onboarding

Simple setup with digital certificates and API endpoints. No major system overhauls required.

Operational Excellence

Reduce manual errors, accelerate processing cycles, and leverage detailed analytics for smarter business decisions.

ERP Agnostic

Flexible integration logic that adapts to your current tech stack.
